

Note: The information below represents a high level summary of recycling materials presented in Global products. Other end-of-life opportunities for our products have also been highlighted for whenever reuse and refurbish options are not possible. The website sources provided in this document are considered aid tools for customers to access additional disposal options and recovery values for recycled materials. These sources are not controlled by Global. As such, information on these sites can vary.

Material	Other end-of-life opportunities when reuse and/or refurbish are not possible		Website options and pricing links
