

PET FELT DIVIDERS
freefit

Privacy when you need it

FreeFit PET acoustic panel dividers are low enough to promote collaboration yet high enough to create a sense of privacy and define your space. Create independent work areas for people to collect their thoughts or get some work done before moving on to the next meeting. Select the panel that supports the way you work.

PET Felt adds color, tackability and pleasant tactile properties to FreeFit while enhancing acoustic characteristics of the space.
