

Modular Files Blocks™

Blocks allows for two sided file access which can be used in a variety of applications. Simply choose from a selection of lower Blocks and upper Blocks to create unique configurations. In conjunction with worksurfaces, Blocks creates functional and space-efficient work spaces.

Blocks is quick and simple to set up, configure, and if needed, re-configure. This flexible filing system is designed to meet your future needs – simply unassemble and re-assemble on site.

A. Optional E-lock for extra security. **B.** Both fixed front drawers and receding doors accept letter or legal size file folders. **C.** Looped full pull handle is easy to open and close.

- Features**
- Stackable filing system that can be easily assembled and re-configured
 - Provides multi-user solutions with access from two sides of files
 - An assortment of cabinet openings and heights are available to create a wide variety of file configurations
 - Each Block is constructed from cold rolled steel
