Sonoma™ wardrobes transform small rooms into comfortable, airy living spaces. Designed to meet the personal storage needs of residents in care, a range of Sonoma wardrobes are available for convenient hanging, or folded drawer storage. Design details, including interior door hooks, optional anti-tip security kit, drainage and ventilation openings, make everyday easier for residents.

These wardrobes feature a modular design that aligns with Sonoma dressers and bookcases to maximize available space. Sonoma is elevated off the floor to simplify housekeeping and support infection control practices.
Attention to detail

Two door wardrobe cabinet with full height hanging storage and large adjustable shelf storage.

Features

Cabinet doors are fitted with commercial quality hinges that provide 170° or full opening.

Bottom drawer interiors are vinyl wrapped and stain and moisture resistant.

All wardrobes feature a J-style safety clothing rail for added safety and peace of mind.

Wardrobe cabinets offer additional hanging storage with a safety garment hook.

Locks are available for top drawer (key alike and master key options are available).

An anti-tip security kit is available and is recommended for added safety.

Wardrobe shown in Shaker Cherry with linear fascia.
Easy, everyday storage

Three door wardrobe cabinet with full height hanging storage, adjustable shelf storage and three drawers with optional lock on the top drawer.

Two door wardrobe cabinet with full height and half height hanging storage and fixed shelf storage. Additional adjustable shelf is optional.

Top to bottom: Wardrobes shown in Clear Maple with scallop fascia and arc handles; Avant Honey with arc fascia.
A closer look

**Top Fascia**
The top fascia is available in four attractive transitional styles and acts as a guard to prevent small objects from rolling off the back of the wardrobe and out of reach. A fascia at the bottom of the wardrobe is provided in a matching profile.

**Shelves**
Wardrobes are fitted with a combination of fixed and adjustable shelves to provide flexibility and superior structural integrity.

**Legs**
Legs are constructed of heavy duty aluminum extrusions and provide superior structural integrity due to the continuous attachment along the full length of the cabinet’s frame. Legs are finished in color coordinated and environmentally friendly powder coated epoxy. Custom colors are available for larger projects.

**Chassis**
Chassis panels are fully captured along the entire length of the aluminum leg framework, providing superior strength and structural integrity.

**Drainage**
A drainage reveal is provided at the front of the wardrobe base so that mishaps are quickly evident to housekeeping staff. The reveal is fitted with a polymer liner for durability and easy cleaning. The drainage reveal works with the upper ventilation openings to promote proper airflow in the wardrobe.

**Ventilation**
Ventilation openings are provided at the top of both side gables to promote airflow. All ventilation openings are fitted with a polymer liner for durability and cleaning. Ventilation openings also provide the slot for hanging accessories.

**Accessories** (Optional)
A variety of accessories, including safety mirrors, garment hooks and external hanging accessories, are available to personalize wardrobes and provide additional utility.

**Handles**
Six handle options are available in coordinating finishes. All handles deliver minimal interference, gentle contours and generous hand clearance to accommodate people with reduced vision or limited mobility. Custom handle options are also available for larger projects.

**Glides**
Glides on all four legs are height adjustable to ensure that the top surface can be leveled or slightly angled back towards the rear fascia to reduce the likelihood of small objects rolling off the top and out of reach.

**Tops**
High pressure laminate tops feature a coordinating 3mm polymer edge, providing an easy to clean, durable and stain resistant surface.

**Ventilation**
Ventilation openings are provided at the top of both side gables to promote airflow. All ventilation openings are fitted with a polymer liner for durability and cleaning. Ventilation openings also provide the slot for hanging accessories.

**Gaskets**
Each door is fitted with three commercial quality hinges that are fully adjustable and provide 170° of opening.

**Accessories**
A variety of accessories, including safety mirrors, garment hooks and external hanging accessories, are available to personalize wardrobes and provide additional utility.

**Drainage**
