Button Adjust 1000 – Shown in Grade 3 fabric

Global's Academic Seating line offers an affordable and customizable product. The 18" deep worksurfaces can be straight or curved. All worksurfaces come with 3mm PVC "T" molded edge with radius corners. The base, seat pan and worksurface all have a metal to metal connection for extra durability. The base can also be customized to accept both horizontal and sloping floors. Academic Seating provides options that will help you design a lecture hall with function and style: 12" modesty panels, power data domes, curved worksurfaces, seven seating options and ten HP laminate worksurface finishes enhance your choices.

Seven seating options are available to the Academic Seating line. All seats are mounted onto metal bases for extra durability. Swivel seats allow user to "swing" in and out of position. All seating units are quality built in our own factories and have been drawn from our most popular seating lines.
