Admiral offers the right size for everyone! Multiple seat widths and back sizes provide a custom fit and personalized comfort for all body types.

**9552-3**  
High Back & Standard Seat Multi-Tilter

**9553-3**  
High Back & Generous Seat Multi-Tilter

Admiral offers the Multi-Tilter and Knee-Tilter models in three different seat sizes. The majority of people will find the 'Standard Seat' to be a comfortable fit. Larger individuals will appreciate the increased dimensions of the 'Generous Seat'. And petite users will prefer the reduced scale of the 'Small Seat'. Multi-Tilter models are standard with a sliding, seat depth adjustment to further enhance the fit of the chair. Operator and Task models and Stools are only available with the 'Small Seat'. The compound curves of the back and seat cushions on all models support the body's contours and provide lasting comfort. Admiral also features a fully adjustable arm that can be locked in the user's desired position.

**9562-3**

Medium Back & Standard Seat Multi-Tilter

**9563-3**

Medium Back & Generous Seat Multi-Tilter

Height adjustable arms move up and down to fit a wide range of body sizes and seating positions.

Standard with Vari-Width (WA) adjustable arm extensions.

Armcaps are soft-to-the-touch, self-skinned urethane (SSU) and are depth adjustable (forward and backward). The armcaps slide over the top of the seat to narrow the space between the arms.

Armcaps also articulate inwards and outwards by 15 degrees. The sliding and depth adjustment movements are activated by a push button embedded in the armcap for easy access.

**9572-3**  
Low Back & Standard Seat Multi-Tilter

**9571-3**  
Low Back & Small Seat Multi-Tilter

Vertical ratchet back height adjustment of  $5\frac{1}{4}$ ", standard on all models (except task chairs, arm chairs and side chairs). Back support upright is 3" wide for extra strength.

Side activated seat depth adjustment (MD) standard on Multi-Tilters and optional on Knee-Tilters.

Soft Descent pneumatic cylinder on all models (except HD 24HR Multi Shift models, arm chairs or side chairs).

Standard seat foam is triple layer construction composed of varying densities to create a supportive and comfortable seating experience.

# Admiral™

## Features

Vertical back height ratchet adjustment of 5 ¼".

Back support upright is 3" wide for extra strength.

Standard seat foam is triple layer construction composed of varying densities to provide superior support and lasting comfort.

Soft Descent pneumatic cylinder provides a smooth height adjustment.
