

Echo™

Echo™

Ergonomic seating solution with adjustable features, allows individual users to customize the fit of the chair for their own body proportions.

3670-3 High Back Multi-Tilter shown in Imprint, Navy (IM76)

The Echo series provides full back support from shoulder to hip with a form fitting back that gently cradles your back. The seat is very comfortably padded with top grade highly resilient foam.

The combination of the excellent support provided by the seat and back makes this chair the perfect choice for those who spend many hours at their desk each day.

Echo™

The waterfall seat is generously padded for long lasting comfort and support.

3671-3 Medium Back Multi-Tilter shown in Imprint, Navy (IM76)

In addition, Echo features an adjustable lumbar support that is both height and depth adjustable; simply rotate the handle on the outside of the back to change the profile of the back support to suit your

individual comfort and support needs. You will be impressed with this amazingly comfortable product.

Echo™

Fabrics: Hundreds of fabrics in every conceivable color are available for Echo. Choose from extra-long wearing fabrics or fabrics made from 100% recycled content which are environmentally friendly. All products are Greenguard certified.

SSU Armcaps are made from soft touch self-skinned urethane (SSU). These resilient armcaps protect the edges of your worksurfaces from damage, are warm to the touch and yet are extremely durable.

Standard Arms (style 3P) are height and width adjustable with a waterfall front edge. Arm options provide front to back sliding depth adjustment, sliding width adjustment and swivel articulation. You can choose the options to provide the advanced keyboarding support you require.

Echo's mechanism features tilt-tension adjustment, tilt-lock and independent seat slope/angle adjustment. It also offers an independently adjustable back angle so the user can sit in an upright posture or in a more relaxed position. Adjust this chair to suit your individual seating preferences.

Lumbar area is adjustable up and down (ratchet back) so it will fit perfectly into user's lumbar region. A Schukra style lumbar support can also be adjusted in or out by turning a lever on the back of the chair, thus customizing the lumbar shape and support for each individual user.

Standard base is fiberglass reinforced black nylon. A polished aluminum base is also available at extra cost.

Standard Casters are suitable for carpeted surfaces. Optional casters are available for hard surfaces.

Echo™

3672 Armchair with standard Chrome frame

3672 Armchair with optional Tungsten frame

3672 Armchair with optional Black frame

Echo's matching guest chair is an excellent value. It blends the practicality of soft urethane armcaps with the comfort of a hammock style back and a generously padded seat. The frame is standard with a chrome finish but is also available in Black or Tungsten finishes.
