### natural 'S' curve

A uniquely shaped polycarbonate back frame helps reduce back strain by guiding your back into a correct, healthy posture. The backrest continuously supports the natural lazy 'S' curve of your spine, flexing as you move in any direction.

Optional Aluminum polished base with protective end caps adds an elegant distinction to your seating.

Optional "9S" Boomerang shaped arm is a height adjustable arm featuring soft touch, durable self-skinned urethane armcaps.

Headrest on model 4640 provides extra neck support that can be positioned for the individual user.

The shrouded mechanism, fully upholstered back and self-skinned urethane back upright add character and style.
