The Primacare Sleeper provides a comfortable place to rest for attending family or friends during extended visits and is ideal for hospital, residence or lounge rooms where space is limited.

Primacare Sleeper is easily opened and closed by one person. The cushions have been styled from durable and comfortable high-density Ultracell Bio foam with built in head support in the sleeping position. Requires zero wall clearance when opening.

The series includes both single and double seat units. The reclining position on either side of the double unit can be set independently for maximum flexibility.

Above: seating shown in CF Stinson, Zen Garden with Agion® Snapdragon (62033), arms and legs in Mahogany (TMM).
